

## HEYCO

### Heyco® -Tite Snap-In-2® Liquid Tight Cordgrips

#### Pigtail™, Snap-In Hubs

For Panels from .062" (1,6 mm) to .125" (3,2 mm) Thick

*The Ultimate in Liquid Tight Strain Relief Protection*

**NO LOCKNUT  
REQUIRED!**

Standard color black.

SEALING FLANGE/  
WASHER CONSTRUCTION

SUGGESTED  
CLEARANCE HOLE  
FOR NONTHREADED  
MOUNTING

- Integral nylon spring eases the cable into a lazy bend; prevents kinking and assures longest cable and product life.
- Easy installation—unique fingers securely snap into a range of panel thicknesses – up to .125" (3,2 mm) – with no tools or locknuts required.
- Sealing flange prevents sealing washer displacement due to water velocity to ensure a liquid tight IP 65 seal.
- Eliminate need for locknut or threaded hole to achieve liquid tight seal at panel; perfect for low clearance installation where locking nut access is limited.
- Ratchet design of sealing nut assembly provides superior anti-vibration and ensures a firm grip on the cable.
- Foam washer included.
- Rotation prevented when used in "Double D" mounting holes.
- Available in multiple sizes for flexible cord diameters ranging from .065" (1,7 mm) to .709" (18,0 mm).
- We recommend using the fitting with the smallest maximum diameter that will fit your application.
- Consult Heyco for cordgrips molded in other colors.
