

Key and Ignition Switches

Key and Ignition Switches

Customization is standard with Honeywell's key and ignition switches. Honeywell's broad range of product options make building the specific key switch for an application simple. Optional features of multiple unique key codes, momentary positions, terminal and integral connector types, UL-ratings, and various circuitry configurations are available to provide design flexibility. To maintain consistent branding, Honeywell also offers over-molded keys with custom logos. These options, coupled with the wide electrical rating and temperature range, come standard on every switch to meet growing customers' needs.

These rugged and reliable switches increase application reliability and facilitate seamless equipment operation and control with their ability to keep dirt and moisture out of the contact chamber, thereby prolonging switch life. The two-, three-, and four position key switch options easily integrate into specific application designs.

Designed to withstand harsh environments with a robust, environmentally sealed design, Honeywell key and ignition switches are found in the toughest applications, from off-road vehicles like ATVs, snowmobiles, and motorcycles to agriculture, construction, industrial, and lawn and garden equipment.

What makes our key switches better?

- Robust design with o-rings, weep holes, and overmolded keys delivers consistent performance in harsh environments
- Multiple position, circuitry, contact, key, and connector options to address unique application requirements
- UL certified listings offered
- Availability of over-molded keys with custom logos and ability to match existing key codes
- Decades of engineering, design, and application experience

***Manufactured for harsh,
rugged environments***

HIGH DURABILITY
MULTIPLE CONFIGURATIONS

Features and Benefits

ENVIRONMENTAL PROTECTION

Honeywell key and ignition switches are designed and tested to **withstand a wide range of environmental conditions and contaminants**: temperature cycling, chemical splashes, pressure wash, vibration, dust, humidity, and salt. O-rings protect the contact chamber from moisture and dust while weep holes in the key cylinder housing facilitate drainage.

IMPROVED DURABILITY

Stainless steel keyhole shroud and keyhole dust shutter add **durability and corrosion resistance to the key tumbler/cylinder assembly**. The key cover (key boot) protects key cylinder from dust and ingress.

Form factor! Easily customized for specific applications

ROBUST CONSTRUCTION

Polypropylene plastic housing (rear) improves durability and supports equipment weight reduction.

WIDE RANGE OF CONFIGURATIONS

Two-, three-, or four-position switches, maintained and momentary (recoil) key positions, and numerous circuitry configurations allow for customization of equipment operation and control. **UL certification options** available, as well. To maintain consistent branding, Honeywell also offers **over molded keys with custom logos**.

MULTIPLE KEY OPTIONS

Double-sided keys allow for **easy key insertion** and switches can be designed to allow for **key removal in various key positions**. Up to **300 unique key codes** are available to provide increased security and compatibility with existing keys.

CONNECTOR CHOICES

Integral connector (Metri-Pack, Sumitomo): Two-, three-, or four-position switches.
Screw terminal: Two- or three-position switches.

FASTER ASSEMBLY

Integral connectors **facilitate quick assembly** and minimize the potential for wiring errors.

Potential Applications

Honeywell key and ignition switches can be used in a variety of transportation and industrial applications ranging from run/start ignition to single-point control for lights and accessories.

- All-terrain vehicles
- Snowmobiles
- Golf carts
- Aerial/scissor/boom lifts
- Telehandlers
- Construction equipment
- Skid loaders
- Forklifts
- Agricultural equipment
- Tractors
- Material handlers
- Marine equipment
- Generators

Key and Ignition Switches

Table 1. Specifications

Characteristic	Integral Connector	Screw Terminal
Connector	Delphi Metri-Pack or Sumitomo	Screw
Electrical rating (res.)	12 Vdc, 20 A; 24 Vdc, 8 A	12 Vdc, 20 A; 24 Vdc, 10 A; 48 Vdc, 4 A
Operating temperature	-40 °C to 85 °C [-40 °F to 185 °F]	-40 °C to 85 °C [-40 °F to 185 °F]
Cycle life at electrical load	25000 cycles	25000 cycles
Position	2 position; 3 position; 4 position	2 position; 3 position
Mounting	panel	panel
Depth behind panel	43,43 mm [1.71 in]	39,88 mm [1.57 in]
Sealing	IP rating pending	IP rating pending
Contacts	brass/tin	copper
Approvals	UL available	UL available
Front housing material	40 % mineral-filled nylon	40 % mineral-filled nylon
Rear housing material	polypropylene	polypropylene
Weight	68 g [0.15 lb]	68 g [0.15 lb]

WARNING

PERSONAL INJURY

DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

WARNING

MISUSE OF DOCUMENTATION

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

While we provide application assistance personally, through our literature and the Honeywell website, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.
