### RECOGNITIONS

For complete scope of recognitions see [www.samtec.com/quality](http://www.samtec.com/quality)

Mates with:  
HDTM

### ALSO AVAILABLE (Customer Defined Configurations)

Power and keying/guidance modules also are available but require a single customizable BSP product. A BSP product is built by combining any number, in any configuration, of HDTFs, power and keying/guidance modules to create one receptacle. Contact HSBP@samtec.com for more information about building a BSP product.

Up to 84 differential pairs per inch

Modular design provides flexibility in applications
