

# CT10 SERIES ENCAPSULATED MOLDED SWITCH

## CT10 Series

The CT10 is an encapsulated molded dry reed switch. It is single-pole, single throw (SPST) type, having normally open ruthenium contacts.

The sensor is a double-ended type and may be actuated with an electromagnet, a permanent magnet or a combination of both.

The device is designed for SMD mounting and is available in three lead configurations.

\* NEW CT10-G2 now 260 °C process temperature hardy.
