

OeD4206-20.00M TCVCXO Oscillator

November 2010

- Pletronics' OeD4 is from the OeXO™ Series of temperature compensated voltage controlled crystal oscillator with a CMOS output.
- Cut Tape -or- Tape and Reel packaging
- 3.2 x 5 mm LCC Ceramic Package
- Supply Voltage: 3.3V

**Pletronics Inc. certifies this device is in accordance with the
RoHS 6/6 (2002/95/EC) and WEEE (2002/96/EC) directives.**

Pletronics Inc. guarantees the device does not contain the following:

Cadmium, Hexavalent Chromium, Lead, Mercury, PBB's, PBDE's

Weight of the Device: 0.10 grams

Moisture Sensitivity Level: 1 As defined in J-STD-020D.1

Second Level Interconnect code: e4

Absolute Maximum Ratings:

| Parameter | Unit |
|--------------------------------|---------------------------------|
| V _{CC} Supply Voltage | -0.5V to +6.5V |
| V _i Input Voltage | -0.5V to V _{CC} + 0.5V |
| V _o Output Voltage | -0.5V to V _{CC} + 0.5V |

Thermal Characteristics

The maximum die or junction temperature is 155°C

The thermal resistance junction to board is 30 to 50°C/Watt depending on the solder pads, ground plane and construction of the PCB.

ESD Rating

| Model | Minimum Voltage | Conditions |
|----------------------|-----------------|-------------------------|
| Human Body Model | 1500 | MIL-STD-883 Method 3115 |
| Charged Device Model | 1000 | JESD 22-C101 |

Part Marking:

| | | |
|------|---|--|
| 2000 | = | 20.00MHz, the crystal frequency |
| yww | = | Year and Week of the crystal manufacture |
| PLE | = | Pletronics |
| X | = | Model number, normally a "B" |
| YWW | = | Year and Week of assembly of the TCXO |
| Z | = | internal factory code |

The actual part number is OED4206-20.00M where the model number "206" is the specification number the part is made to. This is not included in the part marking. This is included on the label on the Tape and Reel.

Package Labeling

Label is 1" x 2.6" (25.4mm x 66.7mm)
 Font is Courier New
 Bar code is 39-Full ASCII
 The bar code will show the actual Part Number
(OED4206-20.00M)

Label is 1" x 2.6" (25.4mm x 66.7mm)
 Font is Arial

Reliability: Environmental Compliance

| Parameter | Condition |
|------------------|--------------------------------------|
| Mechanical Shock | MIL-STD-883 Method 2002, Condition B |
| Vibration | MIL-STD-883 Method 2007, Condition A |
| Solderability | MIL-STD-883 Method 2003 |
| Thermal Shock | MIL-STD-883 Method 1011, Condition A |

Electrical Specification for specified Vcc= 3.3V $\pm 5\%$ over the specified temperature range.

| Item | Min | TYP | Max | Unit | Condition |
|--|----------------------------|--|----------------------------|-----------|--|
| Frequency Stability over temperature | -50 | - | 50 | ppb | Over 0°C to 70°C at fixed supply voltage + load (reference to midpoint min/max frequency) |
| Holdover | -50 -40 | 0 0 | 50 40 | ppb | Over 0°C to 70°C for 24 hours Over $\pm 5^\circ\text{C}$ change for 24 hours |

Contacts:

Gold 11.8 to 39.4 μ inches (0.3 to 1.0 μ m)

over

Nickel 50 to 350 μ inches (1.27 to 8.89 μ m)

| Pad | Function | Note |
|-----|-----------------------------|--|
| 1 | Vcontrol Input | If this function is not specified, recommend connecting this pad to ground. |
| 2 | Ground (GND) | |
| 3 | Output | CMOS |
| 4 | Supply Voltage (V_{CC}) | Connect an appropriate power supply bypass capacitors as close as possible. |
| - | N. C. | All other pads on the bottom shall not be connected. These are internally connected and were for the TCXO compensation process |

Layout and application information

All connection points in the designated region have solder mask cover to avoid any electrical connections

For Optimum Stability and Jitter Performance, Pletronics recommends:

- a ground plane under the device
- no large transient signals (both current and voltage) should be routed under the device
- do not layout near a large magnetic field such as a high frequency switching power supply
- do not place near piezoelectric buzzers or mechanical fans.
- minimize air flow across the device

Reflow Cycle (typical for lead free processing)

The part may be reflowed 2 times without degradation.

Tape and Reel: available for quantities of 250 to 1000 per reel, cut tape for < 250
