Trequency       0-18       GHz         /SWR       1.15*       +       0,0000       x F(GHz) Maxi         Insertion loss       0.10       √F(GHz) dB Maxi       XF         SF leakage       - (       NA       - F(GHz)) dB Maxi         Voltage rating       335       Veff Maxi         Voltage rating       335       Veff Maxi         Operating temperature       -65/+165       °C         Hermetic seal       NA       Atm.cr         Panel leakage       NA       Atm.cr         NA       NA       NA         Axial force – Opposite end       NA       NA         NA       NA       N.cm mini
Senter contact retention     SPECIFICATION       Axial force – Mating End     6.8     N mini       Axial force – Opposite end     NA     N mini       Torque     NA     N.cm mini
Axial force – Mating End       6.8       N mini         Axial force – Opposite end       NA       N mini         Torque       NA       N.cm mini
Recommended torque Mating NA N.cm Panel nut NA N.cm
Mating life     1000     Cycles mini
Weight 0,4600 g Others: Compliant with MIL-STD-348 *At 12.4Ghz - Performance strongly depends on lay out and pcb material

## Technical Data Sheet

MALE STRAIGHT RECEPTACLE SMT TYPE - CATCHER'S MITT

PAGE 3/6	ISSUE 120115C
----------	---------------

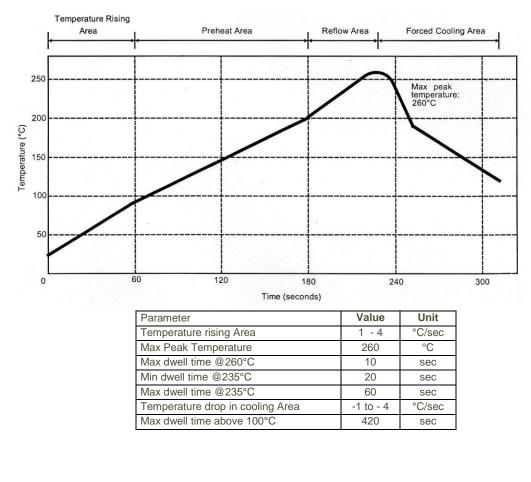

SERIES SMP

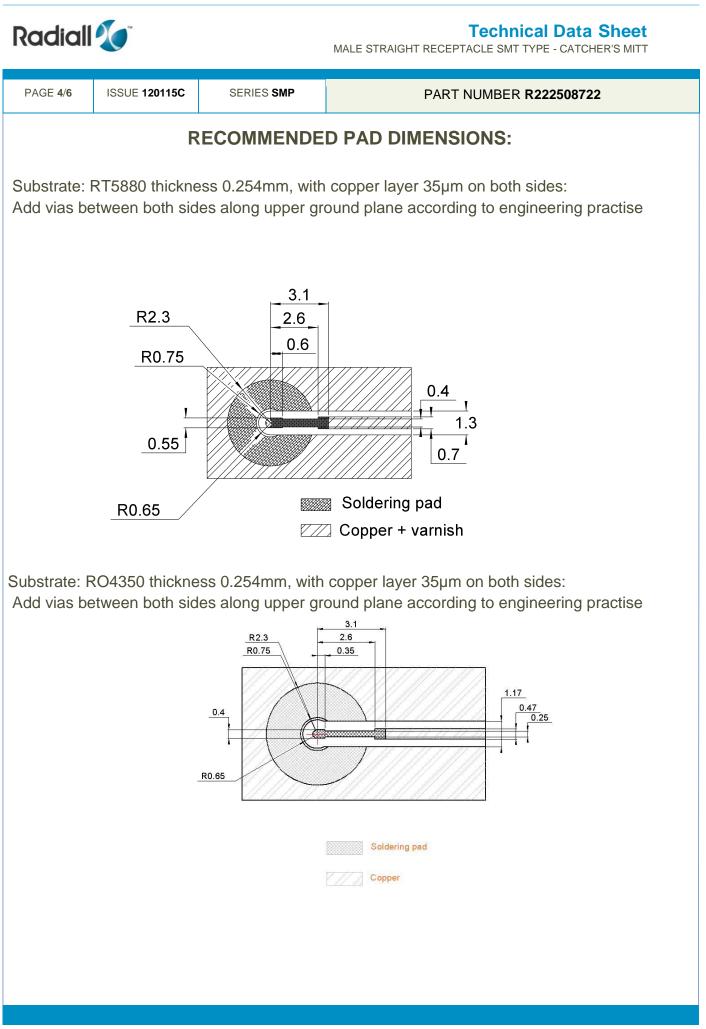

PART NUMBER R222508722

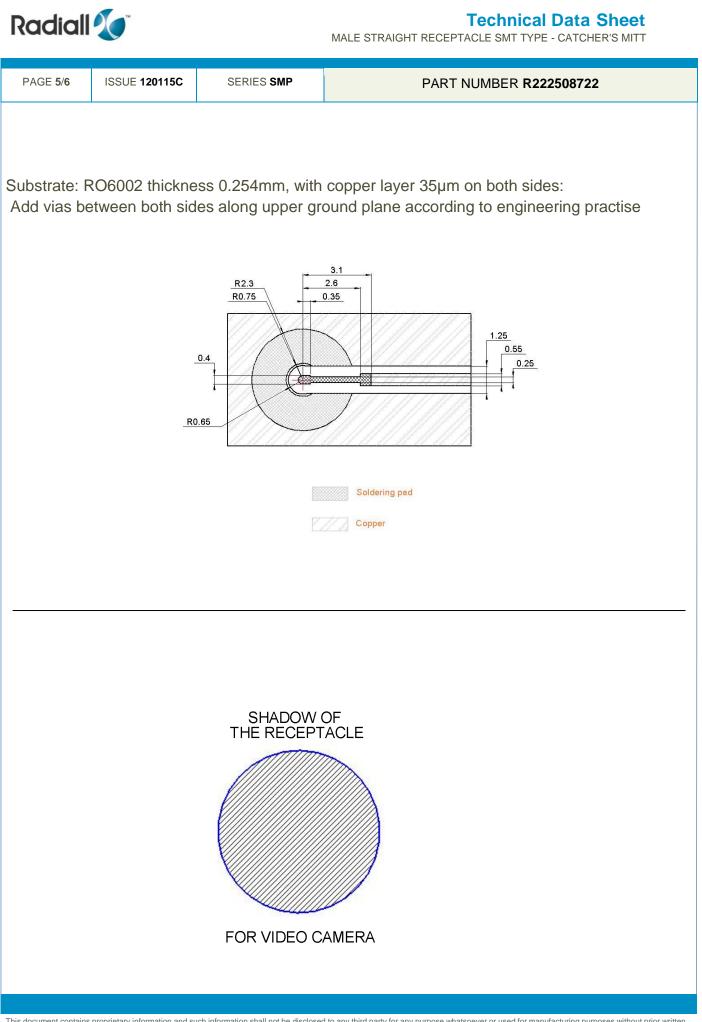

# SOLDER PROCEDURE

- Deposition of solder paste 'Sn Ag4 Cu0.5' on mounting zone by screen printing application. We recommend a low residue flux. We advise a thickness of 150 µm. Verify that the edges of the zone are clean.
- Placement of the receptacle on the mounting zone with an automatic machine of 'pick and place' type.
   Video camera is recommended for the positioning of the component. Adhesive agents must not be used on the receptacle.
- Soldering by infra-red reflow. Below, please find the typical profile to use.
- 4. Cleaning of printed circuit boards.
- 5. Checking of solder joints and position of the component by visual inspection.
