Resistor Product Discontinuation & Update

We would like to take this opportunity to thank you for your patronage and the many years of support you have given to our resistive products. As you know we are de-emphasizing the product line and would like to inform you of our decision to re-align our product offering.

AVX will expand our focus on our 0408 and smaller resistor array products and discontinue to offer our larger case size resistor chip series along with the 1206 resistor arrays. This will be accomplished in several stages over the next twelve months. Please refer to each product series below and the effective dates we will cease to supply the products.

- **Chip Resistor Series (CR63, CR32, CR21, CR10)**
Final Ship Date: February 1st, 2004

- **Chip Resistor Series (CR05)**
Final Ship Date: August 1st, 2004

- **1206 Resistor Array Series (CRA3A4E, CRB3A4E, CRC3A4E)**
Final Ship Date: August 1st, 2004

We would like to work closely with you during the discontinuation period and minimize any inconveniences that may arise. Should you have any questions or comments, please contact KDP Marketing.
