

Mini DisplayPort to Active VGA Cable Adapter (M/M), 6-ft.

MODEL NUMBER: **P586-006-VGA**

Description

Tripp Lite P586-006-VGA allows you to connect a desktop or laptop computer with Mini Displayport video port, to a VGA monitor. All in one 6ft design with inline signal converter requires no additional adapters or software....plug-and-play. It features a low profile VGA connector that fits neatly into the available monitor space, without jamming between the wall and the back of the display or impeding neighboring connectors. Resolution support up to 1920x1200. Unlike passive adapters, Active adapters convert both Single-Mode and Dual Mode (DP++) DisplayPort output. It is ideal for use with graphics cards, such as AMD Eyefinity, that do not output Dual Mode (DP++) signals.
