

Xinger. T

Features:

- 2300-2700 MHz
- AMPS
- High Power
- Very Low Loss
- Tight Coupling
- High Directivity
- Production Friendly
- Tape and Reel
- Lead-Free

20dB Directional Coupler

Description

The XC2500P-20S is a low profile, high performance 20dB directional coupler in a new easy to use, manufacturing friendly surface mount package. It is designed for AMPS band applications. The XC2500P-20S is designed particularly for power and frequency detection, as well as for VSWR monitoring, where tightly controlled coupling and low insertion loss is required. It can be used in high power applications up to 20 Watts.

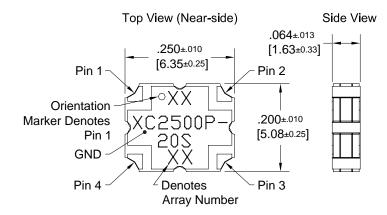

Parts have been subjected to rigorous qualification testing and they are manufactured using materials with coefficients of thermal expansion (CTE) compatible with common substrates such as FR4, G-10, RF-35, RO4003 and polyimide. Produced with 6 of 6 RoHS compliant tin immersion finish.

Electrical Specifications **

Electrical Specifications				
Frequency	Mean Coupling	Insertion Loss	VSWR	Directivity
MHz	dB	dB Max	Max : 1	dB Min
2300-2700	20±1.0	0.20	1.20	20
Frequency Sensitivity	Power	ΘJC	Operating Temp.	
•			Tompi	
dB Max	Avg. CW Watts	°C/Watt	°C	
dB Max ±0.30	Avg. CW Watts	°C/Watt TBD	•

Packaging and Ordering Information

Parts are available in both reel and tube. Packaging follows EIA 481-2. Parts are oriented in tape and reel as shown below. Minimum order quantities are 2000 per reel and 77 per tube. See Model Numbers below for further ordering information.
