

- Notes.
- 1 ➤ Co-planarity is within 0.1 mm.
 2. As for part No.5 the performance remains good even if there are rubbing wounds by the assembly process.
And the performance remains good though there might be a difference in the plating luster between each plating lots.
 - 3 ➤ Per reel : 400 pcs.
 - 4 ➤ Refer to the mated condition diagram for the panel thickness and layout.
 5. This product is mounted by reflow soldering.
Refer to specification sheet ELC-129488-00-00 for reflow soldering.

△ Reference PCB Layout (Connector Mounting Side) (t = 1.6)

General tolerance is +/- 0.05

□ Reference Metal Mask Layout (t = 0.15)

General tolerance is +/- 0.02

Mated Condition (Free)

□ Reference Dimensions of Panel Cutout (FREE)

Dimension is reference.

□ Thickness of metal mask is 0.1 mm min.

Metal mask dimensions of the drawings described, are reference dimensions for 0.15 mm thickness metal mask.
Change the metal mask dimensions by thickness of the metal mask, thickness of PCB, component of solder paste and mounting conditions.
Change the metal mask dimensions in case of mounting IX61G-**-10P in parallel.
Change the metal mask dimensions, if there are other mounting parts or implementation pattern around the portion of mounting position of IX61G-**-10P.
Refer to the technical specification (ETAD-E3170-00) for different variations of the metal mask pattern width.
