

## Description

Miniaturised single pole press-to-reset cycling trip free thermal circuit breaker designed for automotive fuse block installation.

Extends the benefits of circuit breaker performance and convenience to applications which are cost critical. Colour-coded housing caps or manual release buttons available.

Version 1616 is available especially for the automotive industry (current ratings correspond to those of blade fuses).

**US patent number:** US 6,590,489 B1 (1610-H2)

## Typical applications

Extra low voltage wiring systems on all types of vehicles and marine craft.

## Ordering information

| Type No.                         |  |
|----------------------------------|--|
| 1610                             | single pole automotive circuit breaker                 |
| <b>Voltage rating</b>            |  |
| 21                               | DC 24 V, with reset button                             |
| H2                               | DC 24 V, with reset button and manual release facility |
| 92                               | DC 12 V, autoreset (type I to SAE J 553)               |
| <b>Current ratings</b>           |  |
|                                  | 5 6 8 10 15 20 25 30 A                                 |
| 1610 - 21 - 8 A ordering example |  |

Please be informed that we have minimum ordering quantities to be observed.

## Preferred types

| Preferred types | Standard current ratings (A) |   |   |    |    |    |    |    |
|-----------------|------------------------------|---|---|----|----|----|----|----|
|                 | 5                            | 6 | 8 | 10 | 15 | 20 | 25 | 30 |
| 1610-21-        | x                            | x | x | x  | x  | x  | x  | x  |

## Current ratings, typical voltage drop values and colour coding

| Current rating (A) | Voltage drop (mV) | Actuator colour manual release (1610-H2) or housing cap colour (1610-21) |
|--------------------|-------------------|--|
| 5                  | < 150             | light-brown  |
| 6                  | < 150             | green  |
| 8                  | < 150             | golden yellow  |
| 10                 | < 150             | red  |
| 15                 | < 150             | blue   |
| 20                 | < 150             | yellow   |
| 25                 | < 150             | pearl  |
| 30                 | < 150             | light-green  |

## Approvals

| Authority | Standard                         | Rated voltage | Current ratings |
|-----------|----------------------------------|---------------|-----------------|
| UL        | UL 1500<br>Ignition<br>Protected | DC 24 V       | 5 A...30 A      |

| Mass                                       | approx. 5 g  |

### Caution:

It is good practice to switch off the vehicle's ignition system before re-setting the circuit breaker.

Free travel of the reset button must be ensured! Please ensure to push in the actuator smoothly and completely.

## Typical time/current characteristic curve

### 5...30 A

The time/current characteristic curve depends on the ambient temperature prevailing. In order to eliminate nuisance tripping, please multiply the circuit breaker current ratings by the derating factor shown below. See also section Technical information.

|                        |       |      |      |      |      |      |
|------------------------|-------|------|------|------|------|------|
| Ambient temperature °F | -40   | -22  | -4   | +14  | +32  | +50  |
| Ambient temperature °C | -40   | -30  | -20  | -10  | 0    | +10  |
| Derating factor        | 0.73  | 0.78 | 0.82 | 0.86 | 0.91 | 0.95 |
| Ambient temperature °F | +73.4 | +104 | +122 | +140 | +158 | +185 |
| Ambient temperature °C | +23   | +40  | +50  | +60  | +70  | +85  |
| Derating factor        | 1     | 1.09 | 1.16 | 1.25 | 1.33 | 1.43 |
