

# 4624 N AC Axial Fan

AC fan with external rotor shaded pole motor, AC low-voltage version. Metal fan housing and impeller. Electrical connection via 2 flat pins 3,0 x 0,5 mm. Air intake over struts. Rotational direction CW looking at rotor.

## Features

- Protected against overloading (impedance protected).
- Designed for maintenance-free long-term operation.
- Any mounting position.

## Technical Data

Nominal voltage	VAC	24
Frequency	Hz	60
Nominal speed	Rpm	3100
Max. airflow	cfm	93
Nominal current	mA	950
Noise free air	dB(A)	47
Power consumption	W	18
Permanent ambient temperature	°C	-10 ... +60
Service life (T <sub>max</sub> )	h	20.000
Service life (40 °C)	h	32.500
Fan housing / impeller	Metal / Metal	
Bearing system	sleeve bearings	
Mass	g	550

Alle Daten sind Mittelwerte bei Nennspannung.
