Introduction

The Neutrik® plug and jack program offers a wide range of professional phone connectors including 1/4", 3.5 mm, MIL/B-gauge style and TT or bantam style plugs. The jack range offers an exceptional "slim" 1/4" PCB jack that is almost 20% smaller than most other designs. The heavy duty M line combines a wide range of options such as three different nose forms and four styles of contacts including 3 PCB and one solder tab. It also includes a 1/4" chassis and cable jack line with the secure locking feature, well known from the XLR range. All jacks are manufactured from strong high-grade thermoplastics and are available in all common versions which make them suitable for audio and industrial applications.

The plug line features:

- Mono (TS) and Stereo (TRS) plugs
- Straight and right-angle versions
- Rugged diecast shell in nickel or black chromium
- Nickel or gold plated contacts
- Chuck type strain relief
- Precision machined plugfinger without rivets
- Coloured boots and rings for coding
- Silent Plug for instrument (guitar) applications

All plugs and jacks are specified to IEC 60603-11 and EIA RS-453 or the respective MIL standard.

Neutrik* also offers a special jack version which is a combined 3 pole XLR receptacle and a 1/4" phone jack for balanced mic or line inputs in one XLR shell. This "one for two" panel mount offers substantial cost, labour and material savings. For more information on the Combo products see page 29 and 30 or visit our website at www.neutrik.com.

Neutrik brand

Anti-kink bushing

Chuck type strain relief

1/4" Phone Plug - PX and PRX Series

- Slim 1/4" plug with million fold proven chuck type strain relief
- Precision machined one piece contacts no rivets
- Sleek attractive design for best handling convenience
- 14.5 mm only in diameter (right angle 15.4 mm) serves highest packing density of 15.88 mm jack pitch
- Nickel or gold plugfinger in mono (TS) and stereo (TRS)
- Screwless assembly (PRX series as well)
- L-D version available which accommodates cables O.D. up to 8 mm

15.88 mm jack pitch:

NP2RX

Moving magnet

Right angle plug

Attention!

For use with instrument (guitar) applications only. Damage may occur if connected to amplifier.

1/4" Phone Plug - silentPLUG

Design Criteria

The silentPLUG automatically mutes (shorts) an instrument (guitar) cable to avoid pops and squeals when changing the instrument (guitar) under load.

The integrated silent switch (pat. pending) is based on REED-technology and guarantees a lifetime beyond 10000 mating cycles. The PX silentPLUG features a rugged metal shell enhanced with a rubber cushion overlay for improved shock protection.

- Avoid pops and squeals
- Hermetically sealed switching contacts
- Lifetime beyond 10'000 mating cycles
- Slim right-angle plug with industry proven and reliable chuck type cable strain relief
- Sleek attractive design for convenient handling and connections
- Rubber overlay on straight housing for best shock-protection and reliability
- L-D version available which accommodates cables O.D. up to 8 mm

- No wear, constant contact resistance
- Decoupled from switching mechanism

NP2X-AU-SILENT

Rotary knob to change the timbre

Right angle plug

1/4" Guitar Plug - timbrePLUG

Design Criteria

The characteristic sound of a guitar is not only influenced by the guitar (strings, pickups, body) alone but also by the attached instrument cable and the following guitar amp.

The timbrePLUG provides the possibility to change the timbre of your guitar sound from neutral, clear sound to warm characteristics.

(not applicable when used with active guitar pickups)

- Standard timbre of your cable plus 3 additional sound characteristics
- Slim right-angle plug with industry proven and reliable chuck type cable strain relief
- Sleek attractive design for convenient handling
- Gold plug finger, precision machined one piece contacts

timbrePLUG - charakteristic

- neutral position / basic sound characteristic
 position 1 / sound characteristic 1
 position 2 / sound characteristic 2
- position 3 / sound characteristic 3
- Frequency

- Fancy, noble, valuable, attractive package - an eye-catcher

C Series

NP2C + BSP-3

- Available in mono (TS) or stereo (TRS)
- Meets EIA / IEC standards
- Unique plug finger design without rivets
- Sturdy diecast metal shell
- Excellent Neutrik® chuck type strain relief

MIL/B-Gauge Type Plugs

NP3TB-R

- 1/4" "B-Gauge" and "MIL" Type Plugs
- All metal design, chuck type strain relief, no rivets
- Meet all prevailing standards
- Available as plug fingers only for overmolding

0.173" Bantam Type Miniature Plugs

3.5 mm Right-Angle Stereo Plug

- - NP3TT-2

NTP3RC

- Very robust ergonomic design
- Gold contact version in combination with the NJ3TTA jack eliminates contact problems due to corrosion or dirt
- The single plug NP3TT-P and the dual bantam plug NP3TT-2 are made for assembling with a standard HEX crimping tool as used with coax cables
- Solder termination for T + R, crimp termination for sleeve contact

- The only available 3.5 mm plug with chuck type strain relief
- All metal housing reliable and robust
- Easy to assemble, simple to use
- Slim design space saving
- Excellent cable protection
- All Nickel or black housing, available with gold plated contacts

Locking Jacks

1/4" cable jack with locking

Release latch

Locking 1/4" Cable Jacks

NJ3FC6-BAG

- Securely locking cable jack
- Mates with all mono or stereo plugs specified to EIA RS-453
- Extremely robust and reliable
- Excellent Neutrik cable retention
- Coloured boots available in 10 colours
- For cable O.D. up to 8 mm

Locking 1/4" Chassis Jacks

NJ3FP6C

NJ3FP6C-BAG

- Mates with all mono or stereo plugs specified to EIA RS-453
- Dimensionally compatible with D Series (31 x 26 mm)
- Securely locking chassis jack
- Solder terminals
- Special version with black plastic shell
- Choice of grounding option (see on www.neutrik.com)

1/4" Vertical Jacks

NJ*FD-V

- Neutrik 1/4" Vertical PCB Jacks come in either standard 1/4" (FD) or mil gauge (TB) versions
- They feature a snap on/twist off cap which drastically reduces assembly times
- Retention force is provided by a special spring element independent of the contacts which results in optimal contact force with minimal contact wear
- Gold plated contact area for long durability and reliable, corrosion free operation

NJ6TB-V

- High packing density compact design allows for more jacks in less space
- Available in Stereo switching and non-switching versions, and Mono non-switching version
- Over 10,000 insertion/withdrawal cycles

NJ*FD-V

*: 2, 3, 5, 6

Horizontal PCB Jacks

Chrome ferrule

Plastic nut

M Jacks

NMJ2HC-S

NMJ6HFD2

- Wide body and extremely durable contacts
- Available in all common versions:
 - mono
 - stereo
 - switched
 - unswitched
- Hardwire and PCB version
- Nose type in
 - half threaded
 - fully threaded
 - chrome ferrule
- Full threaded and chrome nose M Jacks are supplied with washer and fixing nut
- Mounting hardware for half threaded nose must be ordered separatly
- Fascia appearance in plastic or chrome

NMJ6HHD2

NMJ4HC-S

NRJ-NUT-B

NRJ-WB (washer)

NMJ6HFD2

Horizontal PCB Jacks

Chrome nose

Chassis ground contact

Gold plated contact

Slim Jacks

NRJ4HH-1

NRJ6HF-1

NRJ6HM-1

NRJ-NUT-B

NRJ-NUT-MK

NRJ-NUT-MS

NRJ-NUT-MN (Metal Nose only)

- High board packing densities
- Nose type in
 - half thread
 - fully threaded
 - metal
- *-1 versions meet the requirements of EMC rules through efficient chassis grounding system
- Retention spring ensures optimum grip on inserted plugs, avoiding the chance of lost connection
- All Slim line jacks have PCB horizontal mount pins
- Mounting nuts in different versions available must be ordered separatly

NRJ-NUT-B

NRJ-NUT-MS

NRJ-NUT-MK

NRJ-NUT-MN

(Only compatible with metal nose). Thread pitch is a 3/8" 32 UNEF 2A.

NRJ4HH-1

NRJ4HF-1

NRJ6HM-1

Mount Stacking Jacks

Quick fix nose

Quick fix nut

Fully threaded nose

Stacking Jacks

- Mono and stereo dual slim jack socket for PCB mounting with switch contacts
- Mounting method by either two quick fix or threaded nuts or one single center screw
- Highest board packing density as two jacks are in a single footprint, fit in 1 RU
- Version in fully and half threaded nose, full nose, quick-fit and plane

RCA Series

Gold plated contacts

Soft-touch surface

Phono socket

Profi® RCA Series

NF2C-B2

- Makes ground before signal contact and breaks signal before ground
- No more disturbing noise and broken speaker cones
- Precisely machined to our demanding quality standards
- Neutrik unique chuck type strain relief
- Gold plated contacts
- Sleek barrel with soft touch surface and coloured shrink sleeve
- Improved ground solder lug for ease soldering

Phono Socket

NF2D-4

NF2D-B-6
