

## Features

- Portable ESD worksurface that can also be used to transport populated, unsoldered circuit boards
- Static dissipative foam (Rtt  $1 \times 10^4$  to  $< 1 \times 10^{11}$  ohms) laminated to Protektive Pak<sup>®</sup> impregnated corrugated material for greater durability
- Foam is shuntable, component leads can be kept at equipotential and more stable when moved
- Includes 10mm (3/8") grounding snap
- Static dissipative material  $1 \times 10^6$  to  $< 1 \times 10^9$  ohms
- Buried shielding layer minimizes sloughing and rub-off contamination
- Made in America
