## The Company

Amphenol Commercial Products Group of Amphenol Canada Corp., a subsidiary of Amphenol Corporation, is an ISO 9001 certified facility located in Toronto, Canada. Our activities are dedicated to the design, development, and manufacturing of interconnect products intended for use in the data communications and telecommunications markets. Our expertise in understanding and supporting our customers' interconnect needs has earned Amphenol Canada a reputation of quality and excellence among the world's leading users of electronic components.

## About the Catalogue

This modular jack catalogue represents some of our more popular products within this product category. Other product categories include, but is not limited to: D-Sub, Micro-Ribbon, USB, Headers and Sockets, CoolPower connectors, VHDCI, Capacitively Decoupled BNC, filtered connectors (D-Subs and micro-ribbon), and rugged connectors (RJ, USB, D-Subs, and bulkhead adapters).

All of our modular jacks are RoHS compliant.

All drawings in this document are measured in inches [mm], unless otherwise indicated.

Notice: Specifications are subject to change without notice. Contact your nearest Amphenol sales office for the latest specifications. All statements, information, and data given herein are believed to be accurate and reliable, but are presented without guarantee, warranty, or responsibility of any kind, expressed, or implied. Statements or suggestions concerning possible use of our products are made without representation or warranty that any such use is free of patent infringement, and are not recommended to infringe any patent. The user should not assume that all safety measures are indicated or that other measures may not be required. Amphenol and RJ Vista are registered trademarks.

## EMI Quiet Modular Jack with LEDs

A series of EMI Quiet Modular Jack connectors with built-in LEDs.

This product is ideal for LAN applications such as adapter cards and routers.

Shielded and non-shielded versions are available, with a variety of LED colors and ports.

## Specifications

### Material

<b>Insulator:</b>	High temp. engineering thermoplastic; Complies with UL 94V-0; Black
<b>Contacts:</b>	Phosphor bronze hard temper with gold thickness options (6 $\mu$ ", 15 $\mu$ ", 30 $\mu$ ", 50 $\mu$ ") over 50 $\mu$ " min. nickel on contact mating area; 100 $\mu$ " min. matte tin plating on soldering tail
<b>Shield:</b>	Stainless steel with tin dipped tails
<b>LED:</b>	Tin plating on LED tails

### Electrical

<b>Contact Resistance:</b>	20 m $\Omega$ max.
<b>Insulation Resistance:</b>	500 M $\Omega$ min. at 500V DC for 2 minutes max.
<b>Current Rating:</b>	1.5 Amps
<b>Voltage Rating:</b>	125 Volts AC
<b>DWV:</b>	1000 VAC, 60 Hz. 1 minute

### Standard LEDs:

For 5.0 V Systems

2.1 Volts typical

6 Volts min.

0.5 mCd min. at 2mA

### Low Current LEDs:

For 3.3 V Systems

2 Volts typical

6 Volts min.

1 mCd min. at 2mA

### Mechanical

#### Insertion Force:

5 lbs. max.

#### Pull Retention Force:

20 lbs. min.

#### Durability:

750 mating & unmating cycles

#### Recommended Soldering Temperature:

260°C for 5 seconds max. Connectors without LEDs are suitable for IR Reflow

#### Operating Temperature:

-55°C to + 85°C

#### UL File #:

E135615

#### CSA File #:

LR685398

# RJSSE

SURFACE MOUNT WITH LIGHT PIPES

## Surface Mount with Light Pipes

The RJSSE series represents an expansion of Amphenol Canada's current RJHSE series connector. The RJSSE offers all the benefits of the RJHSE series in SMT with light pipes. Shielded and non-shielded versions are available with or without light pipes.

## Specifications

### Material

<b>Insulator:</b>	High temp. engineering thermoplastic; Complies with UL 94V-0; Black
<b>Contacts:</b>	Phosphor bronze hard temper with gold thickness options over 50 $\mu$ " min. nickel on contact mating area; 100 $\mu$ " min. matte tin plating on soldering tail
<b>Shield:</b>	Copper alloy; nickel or matte tin plating
<b>LED:</b>	Optical grade polycarbonate; UL 94V-0

### Electrical

<b>Contact Resistance:</b>	20 m $\Omega$ max.
<b>Insulation Resistance:</b>	500 M $\Omega$ min. at 500V DC for 2 minutes max.
<b>Current Rating:</b>	1.5 Amps
<b>Voltage Rating:</b>	125 Volts AC
<b>DWV:</b>	1500 VAC, 60 Hz., 1 minute

### Mechanical

<b>Insertion Force:</b>	5 lbs. max.
<b>Pull Retention Force:</b>	20 lbs. min.
<b>Durability:</b>	750 mating & unmating cycles
<b>Recommended Soldering Temperature:</b>	IR Reflow peaked at 260°C for 5 to 8 seconds (Light Pipes to be installed after soldering)
<b>Operating Temperature:</b>	-55°C to + 85°C
<b>UL File #:</b>	E135615

# FRJAE

FILTERED AND SHIELDED

## Filtered and Shielded

The FRJAE series of shielded and filtered modular jacks offer low cost and effective EMC control within standard RJ11 & RJ45 connector footprints. EMC control is offered by a completely shielded connector and/or with the use of a high resistivity, high impedance Ferrite Block. No board layout changes are required for its use. Simply replace the standard non-filtered connector for superior EMC performance.

## Specifications

SURFACE MOUNT ULTRA LOW PROFILE

## Surface Mount Ultra Low Profile

The RJLSE series contains surface mount modular jacks with superior EMI performance that supports Ethernet Protocols. This low profile connector is built to meet your high volume RJ requirements. This series is a true pick and place compatible SMT connector and is available with different shielding, contacts, gold plating thickness, and color options. This connector is built with high temperature engineering thermoplastic and suitable for the IR Reflow solder process.

## Specifications

## RJ45 and RJ11 Standard Profile

This family of EMI quiet modular jack connectors with integrated LEDs features the same data transfer capabilities as our existing series of LED-integrated modular jacks. This product is an economical solution ideal for LAN applications and is intended for use with low temperature soldering processes. Shielded and non-shielded versions are available with a variety of LED options to choose from. RJESE is offered in both single and multi port configurations.

# RJE01

RJ11 (SIX POSITION)

## RJ11 (Six Position)

The RJE01 series of 6-position jacks are designed for superior EMI performance. The inverted connector provides shorter leads, eliminating the EMI antenna effect of the standard connector footprint. Typical performance improvement over their standard connector counterparts is 5-10 dB over the frequency range.

## Specifications

SINGLE PORT SURFACE MOUNT

## Single Port Surface Mount

RJE07 products belong to a family of standard modular jacks designed to meet requirements for a variety of applications. Options within the FRJAE series offer low cost and effective EMC control within standard RJ11 & RJ45 connector footprints. EMC control is offered by a completely shielded connector and/or with the use of a high resistivity, high impedance Ferrite Block. No board layout changes are required for its use. Simply replace the standard non-filtered connector for superior EMC performance.

## Specifications

### Material

<b>Insulator:</b>	High temp. thermoplastic; Complies with UL 94V-0; Black

SINGLE PORT LOW PROFILE

## Single Port, Low Profile

The RJE15 low profile connector is built to meet your high volume RJ requirements. This is a true pick and place compatible SMT connector and is available with or without shielding, as well as with a variety of options including number of contacts, plating thickness, and color. This connector is built with high temperature engineering thermoplastic and suitable for IR Reflow solder process.

## Specifications

# RJULE

RECESSED, LOW PROFILE

## Recessed, Low Profile

RJULE is a series of single port RJ45 modular jacks designed for slim profile applications. With a profile height of less than 10 millimeters, this connector is perfect where vertical space is limited. Standard and rear mount shield options for superior EMI performance makes this part ideal for LAN and router applications.

## Specifications

### Material

<b>Housing:</b>	High temp. engineering thermoplastic; flammability rating UL 94V-0
<b>Contacts:</b>	Phosphor bronze
<b>Plating</b>	Gold plated on mating surfaces over 50 $\mu$ " (1.27 microns) min. nickel under plate; 100 $\mu$ " (2.54 microns) min. matte tin on contact tails

## Notes

## 2, 4, and 8 Ports with LEDs and Shield Options

The RJSAE is a RJ45 stackable connector that reduces component and labor costs by incorporating LEDs into the connector. Its stackable feature enables more ports with the same board space. With superior EMI performance, the option of configuring your connector with a Ferrite Filter is available to further reduce crosstalk in noisy applications. Amphenol Canada offers a variety of other options such as shielded and unshielded connectors as well as a variety of LED combinations and port configurations.

# RJSNE

4 OVER 4 PORTS WITH LED AND SHIELD OPTIONS

## 4 Over 4 Ports with LED and Shield Options

The RJSNE series is a stacked connector that offers LED options for link activity and network verification. It is available with or without shielding. The RJSNE series also includes a unique inner shield device to reduce the crosstalk between top and bottom ports.

## Specifications

### Material

<b>Insulator:</b>	Engineering thermoplastic; Complies with UL 94V-0; Black	<b>LED Reverse Voltage:</b>	5 Volts min.
<b>Contacts:</b>	Phosphor bronze hard temper with gold thickness options (6 $\mu$ ", 15 $\mu$ ", 30 $\mu$ ", 50 $\mu$ " over 50 $\mu$ " min. nickel on contact mating area; 100 $\mu$ " min. matte tin plating on soldering tail	<b>LED Light Intensity:</b>	0.4 -1.5 mCd min. at 2mA (for single colors) 0.5 mCd min. at 2mA (for bicolors)
<b>Shield:</b>	Copper alloy; nickel plated/stainless steel with tin dipped tail	<b>LED Wave Length:</b>	Yellow: 587 $\pm$ 7 nm measured at 20mA Green: 565 $\pm$ 6 nm measured at 20mA Red: 625 $\pm$ 5 nm measured at 20mA
<b>LED:</b>	Pure tin plating on LED tail		

### Electrical

<b>Contact Resistance:</b>	20 m $\Omega$ max.
<b>Insulation Resistance:</b>	500 m $\Omega$ min. at 500V DC for 2 minutes max.
<b>Current Rating:</b>	1.5 Amps
<b>Voltage Rating:</b>	125 Volts AC
<b>DWV:</b>	1000 VAC, 60 Hz. 1 minute
<b>LED Forward DC Current:</b>	20 mA typical
<b>LED Forward Voltage:</b>	1.9 Volts max. at 2mA (for single colors) 2.6 Volts max. at 20mA (for bicolors)

### Mechanical

<b>Insertion Force:</b>	5 lbs. max.
<b>Pull Retention Force:</b>	20 lbs. min.
<b>Durability:</b>	750 mating & unmating cycles
