

# GENERAL LAYOUT INFO

The diagram illustrates the general layout of a component array. It features a 4x6 grid of components, each represented by a semi-circular shape with a horizontal line through its center. The components are arranged in two rows of three on the left and two rows of three on the right, separated by a vertical dashed line. The entire array is enclosed in an orange rectangular border. Four orange circles are positioned at the corners of the array: top-left, top-right, bottom-left, and bottom-right. Dimension lines indicate the spacing between the components. A horizontal dimension line at the top shows a distance of  $23.5 \pm 0.2$  between the centers of the first and second components in the top row. A vertical dimension line on the left shows a distance of  $23.5 \pm 0.2$  between the centers of the first and second components in the first column. A horizontal dashed line runs through the center of the array, and a vertical dashed line runs through the center of the array.

## NOTES:

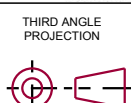

- TAPE SPEC: 3M 9495LE
- THICKNESS 0.17mm
- GENERAL OFFSET FROM HOLDER EDGES IS 0.2mm
