

features

- Manufactured to type RK73Z standards
- Concave or convex terminations
- Less board space than individual chip
- Isolated jumper elements
- Marking: Concave and CNZ1F8K type has green body with no marking
Convex type has black body with white "000"
- Products with lead-free terminations meet EU RoHS requirements. EU RoHS regulation is not intended for Pb-glass contained in electrode, resistor element and glass.

environmental applications

Derating Curve

For resistors operated at an ambient temperature of 70°C or above, a power rating shall be derated in accordance with the above derating curve.
