

MICRO SWITCH™ Key-Operated Safety Interlock Switch GK Series

004790

Issue 1

Datasheet

DESCRIPTION

MICRO SWITCH™ GK Series switches are key-operated safety interlock rugged metal switches which monitor the positions of gates, guards, or doors. The key is attached to the moving portion of the gate, guard, or door. When the gate is closed, the key is inserted into the GK switch indicating a safe position (gate closed) and the machine process can start. The positive opening normally closed contacts  are held closed when the key is inserted into the GK switch. Opening the gate, removes the key from the switch. This action opens the normally closed contacts of the switch and interrupts the machine's control circuit.

GK Series switches are designed with dual-entry positions for the key. The key can be inserted from the top or side of the switch which allows more flexibility in mounting the switch in the application. There are four different styles of keys and a variety of switch contact arrangements to satisfy the requirements for most applications requiring a safety interlock key switch. GK Series switches are designed with a unique friction feature for key retention. GK Series switches have been evaluated for safety functions up to and including a safety integrity level (SIL) of SIL3 when evaluated to the requirements of IEC 61508-2:2010.

VALUE TO CUSTOMERS

- Unique friction feature design for key retention
- Positive opening of all normally closed contacts when key is removed from the switch
- Electrical connection via threaded conduit and terminal screws or an integral mini style 10-pin connector
- GK Series switch mount to a standard EN50041 30 x 60 mm dimension
- Different styles of stainless steel keys to accommodate hinged or sliding doors, gates, or guards

FEATURES

- Electrostatic epoxy coated die-cast zinc housing with the EN50041 30 x 60 mm mounting
- Four different types of stainless steel keys
- 1NC/1NO, 2NC, 2NC/1NO, 2NC/2NO, 3NC/1NO, 4NC contact options
- Positive opening operation of normally closed contacts  to EN/IEC 60947-5-1-3 specification
- Normally open (NO) contacts to indicate key has been removed
- Unique friction feature design for key retention
- Dual entry head design (side or top entry) for key; up to eight different key entry positions
- Optional one or two integral LEDs in cover of switch for monitoring switch signal and/or output status
- Different conduit options for global applications
- Operating temperature range of -25 °C to 85 °C [-13 °F to 185 °F]
- Switch body environmentally sealed to IP67 and NEMA 1, 4, 12, & 13
- CE, CSA, and UL agency certifications
- Designed and agency evaluated for safety functions up to and including a SIL3 level

POTENTIAL APPLICATIONS

- Hinged or sliding gates, guards, or doors for:
 - Machine tool and metalworking equipment
 - Plastic molding equipment
 - Robotic cells
 - Special purpose machinery

DIFFERENTIATION

- Up to four contacts within each switch for control circuit applications (NC contacts) and auxiliary contacts (NO contacts) to indicate the key removal from the switch
- Optional one integral LED to indicate power to the switch or two integral LEDs to indicate power to the switch and output status of the switch
- Designed and evaluated for safety functions up to and including a SIL3 level

PORTFOLIO

Honeywell safety interlocking switches include the metal solenoid [GKL/R Series](#), miniature plastic [GKM Series](#), EN50047 plastic body [GKE Series](#), and plastic body [GKN Series](#). Honeywell also offers non-interlocking safety switches ([GSS Series](#)), non-contact safety switches ([FF Series](#)) and cable/rope-pull safety switches ([1CPS & 2CPS Series](#)).

MICRO SWITCH™ Key-Operated Safety Interlock Switch, GK Series

Table 1. Specifications

Characteristic	Parameter
Description	Dual entry key operated safety interlock switch
Certifications	CSA (C22.2 No.14, File 57323), UL (per UL508, File E37138), CE (per IEC 60947-1, IEC 60947-5-1)
Housing material	Epoxy coated die-cast zinc
Key (actuator) material	Stainless steel
Conduit/electrical connection	0.5-14 NPT, 20 mm, PG 13,5 threaded conduit; 10-pin “mini” style connector
Contact/switch options*	1NC/1NO; 2 NC; 2NC/2NO; 3NC/1NO; 4NC
Contact design	Double break, electrically separated
Contact material	Silver alloy (standard); gold-plated silver alloy (for low energy applications)
Utilization category	AC15, A300/A600**, DC13 Q300
Rated operational voltage (Ue)	240 Vac, 600 Vac, 250 Vdc
Rated operational current (Ie)	3 A, 1.2 A, 0.27 A
Thermal current (Ith)	10 A
Rated insulation voltage (Ui)	300 V, 600 V
Rated impulse withstand voltage (Uimp)	2500 V
Short circuit protective device (SCPD)	Class J fuse (10 A/600 V)
Conditional short-circuit current	1000 A
Pollution degree	3
Environmental sealing	IP67; NEMA 1, 4, 12, & 13
Operating temperature	-25 °C to 85 °C [-13 °F to 185 °F]
Shock	50 G per IEC 60068-2-27
Vibration	10 G per IEC 60068-2-6
MCTF (Mechanical life)	>1,000,000 cycles with single-sided confidence limit of 95 %
MCTF (Electrical life)	>60,000 cycles
SIL Capability	Up to and including SIL3 (HFT1), IEC 61508-2:2010
Proof test interval	1 year
Optional LEDs***	GLC Series with 1 LED pilot light in front cover (supply voltage 12 Vac/dc to 250 Vac/dc) GLD Series with 2 LED pilot lights in front cover (supply voltage 18 Vdc to 30 Vdc)

*All normally closed (NC) contacts are positive opening .

**A600 for 1NC/1NO contacts.

*** When switch includes LED pilot lights, the switch voltage is limited to the rated LED voltage.

Table 2. Electrical Rating

ac				dc				gold-plated contacts
A300/A600**	AC15							
Ue	Ie	VA Rating		Ue	Ie	VA Rating		1 V 10 µA min.

Figure 1. Product Nomenclature

Switch Type	Body/ Indicator	Conduit	Circuitry	Head	Key*
GK Series Dual-Entry Key-Operated Safety Switch	B No indicator	A 1/2 NPT	1 1NC/1NO snap action	L Opening to front & top	6 Straight
	C Single LED indicator	B PG 13.5	2 2NC/2NO snap action	M Opening to right & top	7 90 degree
	D Double LED indicator	C 20 mm	3 1NC/1NO, BBM slow acting	N Opening to back & top	8 Up-down, spring loaded
			4 1NC/1NO, MBB slow acting	P Opening to left & top	9 Side-side, spring loaded
			6 2NC slow acting		X No key
			7 1NC/1NO, gold snap action		
			10 4NC slow acting		
			12 2NC/1NO, BBM slow acting		
			14 2NC/2NO, BBM slow acting		
			16 3NC/1NO, BBM slow acting		
			30 4NC, gold slow acting		
			32 2NC/1NO, BBM gold, slow acting		
			34 2NC/2NO, BBM gold, slow acting		
			36 3NC/1NO, BBM gold, slow acting		

NOTE: not all combinations of model code are available.
Please contact your Honeywell provider/representative for assistance.

* A key actuator is required for each switch. It can be specified with each switch or ordered separately.

*Keys Listing	Key Style
GKZ56	6 - straight
GKZ57	7 - 90°
GKZ58	8 - up/down
GKZ59	9 - side/side

WARNING

RISK TO LIFE OR PROPERTY

Never use this product for an application involving serious risk to life or property without ensuring that the system as a whole has been designed to address the risks, and that this product is properly rated and installed for the intended use within the overall system.

Failure to comply with these instructions could result in death or serious injury.

WARNING

MISUSE OF DOCUMENTATION

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

Warranty/Remedy

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.
