

Made in the United States of America

SPECIFICATIONS

- 9" x 6" ESD safe tool pouch with zipper along the 9" side.
- Great for storing tools, parts, stationary, and other objects around ESD sensitive components.
- Ideal for use by engineers, production workers, field service engineers, etc.
- Dissipative Rs: 1×10^6 to $< 1 \times 10^{11}$ ohms per ANSI/ESD STM11.11
- Tribocharging: Less than 100 volts
- Made with a custom dissipative material made exclusively for Desco Industries, Inc.
- Made in the United States of America

Note: Zipper is insulative

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." [ESD Handbook ESD TR20.20-2008 section 2.4 Sources of Static Electricity]

34458 with brush tools and probes (not included)

$\pm 1/16"$ tolerances on dimensions unless specified
