

This technical drawing illustrates the assembly of a metal frame. The main structure consists of four vertical posts connected by horizontal rails at the top and bottom. A large rectangular panel with a grid of square openings is being attached to the top of the frame. Two callout boxes on the right side show detailed views of the corner brackets used to secure the panel to the vertical posts. The bottom of the frame shows a base structure with additional horizontal supports.

- PDU MOUNTING BRACKET CAN BE ADJUSTED VERTICALLY ALONG CABINET PER RACK SPACE
