

# Let *PANDUIT* Support Your Cables

***The J-Pro™ Cable Support System is an excellent alternative to metal J Hooks for routing communication cables***

- J Hooks available in 3/4", 1 5/16", 2" and 4" bundle capacities to meet requirements of a variety of applications throughout the physical infrastructure
- Complete horizontal and vertical 1" bend radius control helps prevent degradation of cable performance
- UL and CAN/ULC listed and suitable for use in air handling spaces
- Color options provide means to segregate and identify cable bundles for specific applications, such as data, voice, security, fire alarm or other applications that require a designated pathway
- Pre-ripped assemblies allow for attachment to ceilings, beams, threaded rods, drop wires and under floor supports to meet requirements of a variety of applications
- Cable tie channel allows user to install 3/4" *TAK-Ty®* Hook & Loop Cable Tie and provides a method to retain and manage cable bundles
- Non-metallic J Hook prevents cables from coming in contact with metal
