## 1/4" Longframe & TT/Bantam Patchcords

1/4" Longframe

TT/Bantam

Dual TT/Bantam

Switchcraft's 1/4" Longframe and TT/Bantam audio patchcords are built using low capacitance 110 Ohm cable ideal for analog, AES/EBU digital, or SMPTE time code. Dual TT/Bantam versions offer the same low capacitance 110 Ohm cabling and are perfect for RS422 patching, as well as stereo audio patching when used in conjunction with Switchcraft® TT stereo spaced patchbays.

Switchcraft® 1/4" Longframe and TT/Bantam patchcords are currently available in seven colors and feature a highly durable, molded thermoplastic strain relief. The plugs are made of nickel plated copper alloy, which means they won't tarnish and do not need polishing.

Part Numbering System:

\*Sample Part Number:

**LF4R** (1/4" Longframe / 4 Ft. / Red)

|           |          |            |
|-----------|----------|------------|
| Plug Type | Length   | Color Code |
|           | 1-10 Ft. |            |
| <b>LF</b> | +        | +          |

\*Sample Part Number:

**TT2BK** (TT / 2 Ft. / Black)

|           |   |   |
|-----------|---|---|
| <b>TT</b> | + | + |
|-----------|---|---|

\*Sample Part Number:

**TTD3Y** (Dual TT / 3 Ft. / Yellow)

|            |   |   |
|------------|---|---|
| <b>TTD</b> | + | + |
|------------|---|---|

Color: BK = Black    GN = Green  
R = Red            BL = Blue  
O = Orange        GY = Gray  
Y = Yellow

\*Custom Lengths available by request.  
\*TTD Series not available in gray.  
\*Plugs: Nickel plated copper alloy.  
\*Plug Handle: Molded thermoplastic.  
\*Cable: 26 AWG (30x40) OFCB, 110 Ohm.  
\*Jacket: Matte PVC
