

Technical drawing of a shaft with a circular cross-section and a central hole. The hole is labeled with a diameter of $\text{Ø}4.0$. The shaft has a central longitudinal slot.

Technical drawing of a cylindrical component. The drawing shows a side view of a cylinder with a diameter of $\varnothing 7.0 \pm 0.2$ and a height of 6.0 ± 0.2 . A cross-section is shown on the right, indicating a wall thickness of 5.0 ± 0.2 and an outer diameter of 6.0 ± 0.2 . The drawing is labeled with 'a)' in the top left corner.

Technical drawing of a cylindrical component. The top view is a cross-section showing two concentric cylinders. The outer cylinder is labeled 'Term. 1' and the inner cylinder is labeled 'Term. 2'. The side view shows a black cylindrical shell and a red cylindrical core. The total height of the component is dimensioned as 40 ± 3 . The diameter of the red core is dimensioned as 1.0 ± 0.5 .
