Details

The BOX1-1455C is an extruded aluminum enclosure for electronic projects. The enclosure is designed for BusBoard Prototype Systems size 1 prototype PCBs (50x80mm boards).

PC boards mount horizontally by sliding into 4 built-in card guide slots. Two aluminum end panels are provided with attractive plastic bezels to hide the seams. The screws are recessed flathead type to provide a flat surface. The silver aluminum is anodized (clear or black) for protection from the elements. The end panels can be removed for easy drilling or cutting of holes. Screws and adhesive rubber feet are included.
