

The diagram illustrates the 4A package, which is a square component with rounded corners. The dimensions are specified as 8.50 units on both the vertical and horizontal sides. The package features four pads: Polarity Pad(+) at the top-left, Polarity Pad(-) at the bottom-left, and two Dummy Pads at the top-right and bottom-right. The top surface of the package is marked with a circle containing a plus sign (+) in the upper-left corner, and the text "X / X" in the center. A date code marking "4 A" is located in the lower-left corner, with a legend indicating "4=2004" for the year and "A=Jan." for the month.
