

## Data Sheet

APR050SO-R

PUI Audio's eXtreme Series speakers are purpose-built for superior performance. When combined with the **APR050SO-R** passive radiator, a speakers' low frequency performance can be extended almost a full octave lower, for exceptional bass response without adding space for a tuned vent.

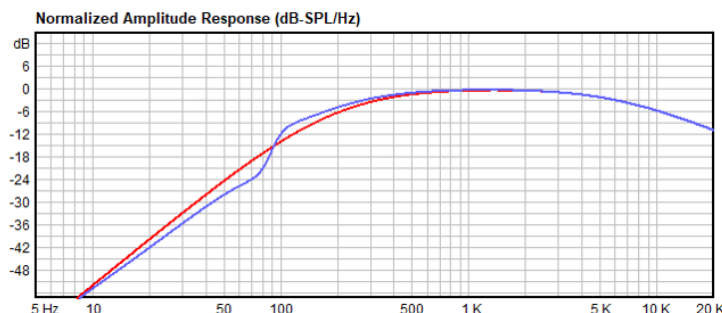

### Features:

- Replaces a tuned port in vented enclosures, saving space
- Enhances bass response in many speakers from 25mm to 70mm in diameter
- Built with peel-and-stick 3M™ double-sided tape for quick, easy mounting
- Stamped steel diaphragm
