

Miniature 4K HDR Lens

Description

The DSL612 lens is a miniature 4K HDR lens designed for HDR or standard sensors up to 1/1.8" format size. The low F-number, thermal stability and Sunex LowGhost™ HDR characteristics make this lens ideal for security, wearable, drone and video-conferencing applications where high sharpness and environmental stability are required.

Key Features

- HFOV ~ 30° on 1/2" format sensors
- Sunex LowGhost™ HDR
- Excellent low light performance: F/2.0 aperture
- Compact Board-Mount size
